

Aditya Sharma

Aspiring Full-Stack Developer | BCA Student | Web Developer

Jamshedpur, India | adityasharma10@amityonline.com | github.com/iadi01 | linkedin.com/in/iadi0

PROFESSIONAL SUMMARY

BCA student and self-taught web developer with 7+ practical web projects and 6+ GitHub repositories across dashboards, weather tools, catalogs, landing pages, calculators and real-time apps. Skilled in JavaScript, React/Next.js, Node.js, REST APIs, MongoDB, responsive UI, Git/GitHub and deployment workflows.

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3, Python

Frontend: React, Next.js, Tailwind CSS, Bootstrap, Responsive Design, UI/UX

Backend & Database: Node.js, Express.js, REST APIs, MongoDB, API Integration

Tools & Platforms: Git, GitHub, VS Code, Vercel, Netlify, Figma, Gen AI Tools

Core CS: Data Structures and Algorithms, DBMS, Operating Systems - learning phase

PROJECTS

GitAura | React, GitHub API, Tailwind CSS, Chart.js

- Integrated GitHub REST API across 4 data groups: profile stats, public repositories, language usage and contribution activity.
- Visualized analytics with 3 Chart.js formats and client-side caching/request throttling to reduce repeated API calls by about 50%.

Weather App | JavaScript, HTML5, CSS3, Weather API

- Developed real-time weather interface with 5-day forecast, city search, geolocation lookup and 6+ climate data points.
- Mapped 4+ weather states to responsive cards, dynamic visuals and mobile-first layouts for desktop and phone screens.

TeamJams | React, Node.js, MongoDB, Socket.io

- Engineered Socket.io workspace with room-based sync for 3 collaboration features: sketchboard, group chat and code snippets.
- Designed Node/Express backend with MongoDB persistence for active workspace structures and chat-history records.

Luxury Furniture Website | React, Tailwind CSS, Framer Motion

- Created premium furniture showcase with 3 catalog filters: price, category and material for faster product discovery.
- Implemented scroll animations, responsive product sections and progressive image loading to support smoother browsing flows.

Anjali Boutiques | HTML5, CSS3, JavaScript, Bootstrap

- Implemented 3-filter catalog system by size, category and price with persistent cart state using browser storage.
- Optimized mobile image grids, quick-view overlays and catalog sections for clothing collections and custom outfit requests.

Trip Budget Calculator | React, CSS3, LocalStorage

- Developed split-cost calculation logic for 4 expense groups: food, stay, transport and leisure.
- Stored trip data locally for offline use and added budget warning indicators when expenses crossed preset limits.

ADDITIONAL PROJECTS

- Portfolio System: organized 6 portfolio areas - projects, study background, skills, terminal commands, blogs and contact flow.
- Restaurant Website: structured 3 interactive modules - menu browsing, dietary filtering and reservation form validation.

EXPERIENCE

Self-Taught Developer - Independent | Remote | 2024 - Present

- Delivered 7+ web projects from idea to deployable versions using Git, GitHub, Vercel/Netlify and iterative UI testing.
- Maintained 6+ repositories while practicing API integration, responsive design, documentation and deployment workflows.

EDUCATION

BCA - Bachelor of Computer Applications | Amity University Online | 2024 - 2027

Focus: web development, DBMS, DSA, operating systems and computer science fundamentals.

Higher Secondary (12th) | Science and Mathematics | 2022 - 2024

HACKATHON & WRITING

- Participated in Code Quest 2025 and created a real-time collaboration tool during a 24-hour coding marathon.
- Published 3 beginner-friendly writing topics covering web development journey, Git for students and first React project lessons.

TARGET ROLES & ATS KEYWORDS

Target roles: Full-Stack Developer Intern, Frontend Developer Intern, Web Developer Intern, React Developer Intern.

ATS keywords: JavaScript, React, Next.js, Node.js, Express.js, REST API, MongoDB, Tailwind CSS, Git, GitHub, Vercel, responsive design, API integration, frontend development, backend development.
